Verified on the deployed API on 18 October 2026. Tutor profile: Linear Algebra, $50/hour. Two 90-minute slots at 10:00: 20 October are booked by the test Learner (requested); 21 October remains open. Create future slots if these dates have passed.

Fresh local data: run node --env-file=.env seed.js in A2 before registering users (it deletes Users and Subjects). Register Tutor and Learner; create Tutor profile, publish slots, then book one as Learner.
